Germany offers Jordan additional 1m euros to support water sector

Germany on Sunday offered Jordan an additional one million euro grant to improve water sources across the Kingdom. Water Ministry Secretary General Ali Suboh and German Federal Institute of Geo-Science and Natural Resources (BGR) Vice President Christian Bonnemann signed the additional aid agreement to expand the work of existing water projects valued at 7.5 million euros. The grant will be divided between two projects, the first of which is a Germany-funded 4-million euro project on assessing the Kingdom's water sources, Suboh said, noting that the aid will be employed to develop water information systems to better the Kingdom's services and environmental conditions. The grant will also cover a second 3.5 million-euro-supported project, which will continue till 2023 and aims to conduct studies on the costs of water extraction and the quality of water. Suboh expressed gratitude for the German support to the Kingdom, especially in improving water supply and sanitation services in response to the urgent conditions which emerged from the Syrian influxes to the Kingdom, the Jordan News Agency, Petra, reported. The one-million euro agreement was signed to mark the 60th anniversary of BGR-Water Ministry relations with the aim of improving water resources in refugee-hosting countries, he added.

Jordan business delegation concludes Cyprus visit

A Jordanian delegation to the Jordanian-Cypriot business forum has concluded its visit to Cyprus, where the two countries discussed ways to develop economic ties. The three-day forum was organised by the Employers and Industrialists Federation (OEB), according to a Jordan Chamber of Commerce (JCC) statement. The Jordanian delegation, headed by President of the JCC Senator Nael Kabariti, met with OEB Chairman Georgios Petrou, Cyprus Parliament Speaker Demetris Syllouris and the general secretary of the Cyprus Foreign Affairs Ministry, who stressed the two countries' "deep" economic ties. Besides discussing a number of economic issues, Kabariti said the visit was intended to explore future opportunities for entering Arab markets, especially Iraq and Syria, highlighting the importance of increasing exchange, specifically in the fields of digital and technical economy.
