Macroeconomic & Corporate News

Jordan industrial exports rise by 8.7% in ten months

The value of the country's industrial exports during the first 10 months of 2019 posted an 8.7 per cent increase as it reached JD4.933 billion, compared to the figure recorded at the end of the same period last year, according to a report by the Jordan Chamber of Industry, the Jordan News Agency, Petra, said. Leather and textiles exports were exported at around JD1.309 billion up from JD1.112 billion, recording a 17.7 per cent increase. Exports of the chemical and cosmetics sector grew by 18.4 per cent to JD815 million from JD689 million, the news agency added. Mining sector exports totalled JD906 million compared to JD893 million, up by 1.5 per cent. Among the sectors that saw a decline in their exports were engineering and ICT industries, packaging industries, and wood and furniture industries.

King, Azeri president hold talks in Baku on expanding cooperation

His Majesty King Abdullah and Azeri President Ilham Aliyev agreed at Zagulba Palace in Baku on Tuesday to expand cooperation, especially in economy, investment, tourism, agriculture and defence industries, as well as capitalise on the agreements signed between the two countries. During bilateral talks, which were followed by expanded talks attended by senior officials from both countries, discussions covered the strong ties between Jordan and Azerbaijan and the importance of maintaining coordination and consultation on issues of mutual concern, according to a Royal Court statement.

Saudi Aramco shares open at 35.2 riyals, valuing it at \$1.88 trillion

Saudi Aramco's shares soared to hit the 10 percent limit to reach 35.2 riyals (\$9.39) per share on its trading debut on Wednesday, giving the oil giant a valuation of \$1.88 trillion, and making it the most valuable company in the world ahead of Apple Inc, and the five largest energy majors. Shares worth more than 750 million riyals (\$200 million) had exchanged hands by 11:28 Saudi Arabia time. Should Aramco's share price gains hold on Wednesday, the company could reach a \$2 trillion valuation on Thursday - the initial price that authorities targeted. Aramco set its IPO price at the top end of an indicative price range of 30 riyals to 32 riyals per share (\$8-\$8.53) and raised \$25.6 billion, making it the largest IPO in history. The strong demand for Aramco's shares signals investor appetite for a mega-cap energy stock. An OPEC+ decision to rein in an oil glut by deepening the current output cut by 500,000 barrels a day is expected to prop up oil prices.
