Macroeconomic & Corporate News

Trade deficit for first 10 months of 2019 drops 14% from 2018 — DoS

AMMAN — Jordan's trade balance deficit for the first 10 months of 2019 totalled JD6.392 billion, marking a drop of 14 per cent in comparison with the figure recorded at the end of the same period last year, driven by a drop in the value of imports by 5.5 per cent. According to the Department of Statistics (DoS), the total value of imports during the January-October period increased by 8.6 per cent to reach JD4.882 billion, with national exports totalling JD4.136 billion while re-exported goods totalled some JD746 million, according to the Jordan News Agency, Petra.

Gov't announces fourth economic incentive bundle

More than 50 per cent of the government's capital spending in 2019 will go to the education, health and transport sectors, Prime Minister Omar Razzaz said on Tuesday. Razzaz made the remarks while announcing the fourth executive packages to improve the national economy. The premier said that the first three packages cannot be sustainable without improving the quality of education, health and transport sectors, noting that many Jordanian families are not covered by health insurance and that public transport should serve all segments of society, "not only those without cars".

Jordan, Syria private sector representatives call on gov'ts to address trade challenges

A private sector delegation on Monday held two meetings with the Damascus chambers of industry and commerce over means to enhance economic relations between Jordan and Syria and overcome trade and transit challenges. The delegates, representing the Association of Owners of Clearance and Transport Companies (AOCTC) and the Jordan Truck Owners Association (JTOA), highlighted the importance of the two countries' governments reconsidering all economic issues, especially the fees imposed on transit trade through Jordan and Syria, the Jordan News Agency, Petra, reported. In 2018, the Syrian government imposed a fee of 10 per cent on transit goods coming from Jordan, which prompted the Kingdom to adopt the principle of reciprocity and impose the same fee on transit goods coming from Syria.
